

## **Release/Renew IP Address**

### **Windows 98/ME**

Click on Start -> Run

Enter `winipcfg` in the dialog box.

Select your network card (NOT PPP Adapter).

Click the Release All button.

Now click the Renew All button.

### **Windows 2000/XP**

Click on Start -> Run

Enter `command` in the dialog box.

From the command line type `ipconfig /release` (with the space) and hit Enter.

Now type `ipconfig /renew` (with the space) and hit Enter.
